PREMIER HEALTH CENTER - KNOW YOUR PATIENT'S HEALTH PRECISELY

## FOUR DECADES OF DIAGNOSTIC EXCELLENCE

Premier Health Center started out as finest diagnostic facility over 40 years ago to become the largest private Diagnostic Center. PHC provides Pathology & Radiology to all private medical facilities, public hospitals and community centers and also operates at series of stand alone Hospitals across Chennai. Our team is world class and we engage and attract the finest healthcare professionals and integrate them across our different locations.

Our expanding team of skilled professionals aim to provide access to high quality, cost effective, best practice diagnostics 24/7, 365 days of the year. The company has a full compliment of Radiologists, Pathologists, Medical Imaging Technologists, Lab Tech, Clinical Assistants and Support Staff.

Premier Health Center, one of the pioneering diagnostic centers of Chennai offers diagnostic services with a brand new, cutting edge technology providing results of uncompromising quality in a transparent and customer focused manner. Premier is regarded one of the finest diagnostic centers, it has been recognized by government and various hospitals for successful ventures and diagnostic services for over a decade. What were never compromised in all these achievements over the 40 years are the ethics and the original vision of providing the best in diagnostics at affordable price.

Our Head Processing Center is spread through 8,000sqft in area with two floors, Separate lounge dedicated for corporate and Association clients. The lab is conveniently located in the heart of the city- Poonamallee High Road, Egmore well connected with the other 27 centers around the town through online reporting and is run by an efficient team of 220 technicians.

## THE COMPANY'S UNCOMPROMISING SERVICE SPECTRUM INCLUDES

Pathology | Radiology | Medical Imaging | Digital X-rays | PCR based Tests | CR-Digitizer | Cutting Edge Lab Tech | Clinical Assistance | Providing Support Staff.

The company is recognized by the Government of Tamilnadu and various hospitals for precision diagnostics.

## ABOUT MANAGING DIRECTOR

**Pradeep Chakravarthy J**  
Managing Director

### **“LEADERSHIP IS THE ART OF ACHIEVING MORE THAN WHAT THE SCIENCE OF MANAGEMENT SAYS POSSIBLE”**

Amidst the stiff Industry competition, Pradeep positioned PHC in the healthcare map by providing quality medical technology.

Ever since his humble beginning in 2000, after his father handed-over administration to him, he has been tirelessly working and established tie-ups with several medical establishments. As a result, PHC now stands as a Finest Diagnostic facility catering over 28 locations across the Chennai.

His vision is to make healthcare accessible and affordable to the Chennai population, his vision, determination and futuristic approach enabled the common man to access quality diagnosis, which were once unaffordable for the people of all classes. All of his corporate ventures are aligned with one goal – improving access and affordability of healthcare.

In recognition of his outstanding leadership qualities, he was adjudged as the **“Pioneering Med-Tech Savant”** by Silicon India.

**PREMIER HEALTH CENTER**  
**KNOW YOUR PATIENT'S HEALTH PRECISELY**

## CUSTOMER-FOCUSED BUSINESS PRACTICES

We started with a mission to become most trusted & reliable healthcare service provider in Chennai. This today is reflected by the number of more than 2000+ foot falls that PHC has on daily basis. "Our vision for the future is a disease free Society through better diagnosis for cure and timely prevention through health screening". We are constantly looking for new ways to transform the lives of others using high end technology.

We are constantly looking for new ways to transform the lives of others using high end technology. Chennai's First State-of- the-Art Premier-Select at Anna Nagar-Shanthi Colony is our latest accomplishment. We are bringing in advanced facilities in 'Select' to serve our customers better.

I take this opportunity to thank all our doctors who placed absolute trust on us. I also thank all our employees, customers, associates, stakeholders, well-wishers and others, without their unstinted support, we wouldn't have achieved what we are today.

## VISION STATEMENT

**Purpose:** Better insights into the health of our patients.

**Mission:** Trusted by doctors, preferred by patients.

## OUR VALUES

**Patients First:** Patients are at the heart of everything we do.

**Medical Leadership:** Improving outcomes through evidence based care.

**Everyone Counts:** We work safely and inclusively and respect each other.

**Create Value:** Deliver sustainable value to all stakeholders.

**Embrace Change:** Strive for excellence, have the courage to innovate.

## OUR WINNING STRIDE CONTINUES

**Mr. Janardhanan**  
Chairman

The best-in-class 25+ laboratories from across Chennai, with an expansion plan of 100 branches by 2022 across Tamilnadu. PHC utilizing its strengths brings capabilities to perform over 2500+ varieties of investigations and will promote Prevention & Early Diagnosis, Focused Wellness Programs.

1980 – Establishment of PHC by Mr. Janardhanan and Mrs. Prasanna Janardhanan. It was first diagnostic facility providing entire spectrum of imaging and lab services under one roof in that year.

Since inception, PHC has built a successful track record and is known for its broad range of laboratory tests and quick turn-around times, with over 300 staff members, and one of largest pool of qualified Radiologists and Pathologists on its team.

2000 – Expansion of PHC to 5 locations within Chennai

2010 – Establishment of 18 locations in Chennai

2018 – Establishment of the best-in-class 25+ laboratories across Chennai, with an expansion plan of 100 branches by 2022 across Tamilnadu.

2019 – Gearing up to become future-readiness. PHC is widening its capabilities to perform over 2500+ varieties of investigations to enable early diagnosis and prevention of health issues.

PRE EMPLOYMENT CHECKS

### ONLINE REPORT DOWNLOAD

Our reports are accessible via our Mobile app and website. Our customers can download complete reports as soon as a report is uploaded online.

Once the Billing is done patient will receive a SMS with id and password to access the report.

24/7 access – The reports are available 24/7 for preview. You don't have to worry about downloading a online report, SMS update is sent to you once report is uploaded on Website / Mobile app.

## OUR SERVICES EXTEND TO YOUR HOME AND BEYOND

### OUR SERVICES EXTEND TO YOUR HOME AND BEYOND

Thinking for longtime on Home collection services?

What if we say we have it ready!

Premier Health Center offers you affordable & Customisable Home collection Service PREMIER HOME CARE is a convenient, technology driven platform that serves as a one stop solution for your patients. It is a home collection for all lab services, offering patients the convenience of making their choice based on time, comfort, location and turnaround time. Patients also enjoy the added luxury of getting their samples collected in the comforts of their home by a trained phlebotomist.

Patients can fix HOME CARE Service by calling our 24/7 patients care number and get info on specific test and profiles that need to be done. PHC shares all the relevant details, including price, quality and certifications, typical turnaround time etc. Patients can then choose the time of Home Care they would like to engage with.

Once our PREMIER HOME CARE team is contacted, patients can schedule home sample collection requests at a convenient date & time. The request gets transmitted to our phlebotomists operating in the area. Phlebotomist accepts the request based on their availability. Our phlebotomist will go to the patients home at the scheduled time to collect the sample in a safe & hygienic method and deliver it to our nearest PHC. The technology driven sample collection process and transportation of samples in a specially designed box, ensures superior sample quality, enabling accurate result.

We have created a specially designed box and universal kit with

- ▶ Bar-coded tubes
- ▶ Hygienic sample draw accessories,
- ▶ Insulated box for safe transportation of samples,
- ▶ Temperature controlled kit to ensure sample quality is not compromised
- ▶ This box ensures superior sample quality is maintained to enable accurate testing result.

## KNOW THE HEALTH PROFILE OF YOUR WORK FORCE

At Premier Health Center, we enable corporates through Health Screening, our consultants are able to customize packages according to your company's requirements to increase efficiency and quality of life. We also deliver competitive corporate rates and tailor corporate accounts with different payment modes. We create tailor-made wellness packages for corporates for a minimum of 10 employees upto 1000 employees.

This is inclusive of premium diagnostic services, a corporate level report for the Human Resources (HR) division that captures the health status of their employees and also highlights special cases that may require immediate attention or supervision. Our individual reports to employees detail their general wellness, including their physical, social and mental well being. Based on the reports, we arrange for talks by industry experts to create awareness and counsel employees. With a wide array of corporate healthcare initiatives, we are committed to ensure staff remain in the pink of health for your enhanced productivity.

In addition to our wellness programs, we also offer ECG, PFT and eye testing as an on-site service to corporates. For queries, please email - [sk@premierhealthcenter.com](mailto:sk@premierhealthcenter.com)

## YOU TRACK ACADEMIC IMPROVEMENT, WE TRACK HEALTH DEVELOPMENT

We also offer health check-ups at schools/Colleges where the focus is on conducting routine check-ups and record health issues specific to the needs of growing children. With a wide array of corporate healthcare initiatives, we are committed to ensure students remain in the pink of health for future.

For queries, please email - [sk@premierhealthcenter.com](mailto:sk@premierhealthcenter.com)

## COMPREHENSIVE HLM SERVICES

Under the Hospital Lab Management (HLM) model, we set-up clinical laboratories in newly established hospitals as well as manage “in-hospital” clinical laboratories in existing hospitals, to conduct onsite testing as per the hospital's requirements. Pursuant to the terms of our contractual agreements, the hospital typically provides space and access to its utilities and other infrastructure, and we provide the diagnostic equipment, and responsible for all costs relating to personnel, consumables, including purchase of equipment, training of manpower and other administrative responsibilities pertaining to the laboratory. Our agreements are exclusive in nature, and generally for terms ranging from three to ten years.

We adopt a 360-degree approach in our laboratory services. We offer a comprehensive array of tests across a wide spectrum of specializations, including biochemistry, hematology, immunology and serology to name a few. Our promise to partnering hospitals is to assume complete responsibility for its laboratory services. We are equipped to cater to a diverse range of medical establishments, ranging from 20 bed clinics to medical colleges with 750 beds. As of Nov 2019, we have 77 laboratories under the HLM at Premier Health Center.

### WE ARE ACCREDITED BY NABH

In all aspects of our services are underpinned by our quality principles:

- ▶ To be the provider of choice for patients and health care providers, offering a patient-centred service, continuing to meet the demands of local and hospital based clinicians, our healthcare partners and our patients.
- ▶ To build on our strengths of rapid access and result communication.
- ▶ To utilise assets effectively, making the most of our patient care environments, optimising the patient and referring doctor experience while simultaneously improving the access to availability of services.
- ▶ To improve patient outcomes by giving immediate access to diagnostic imaging services coupled with immediate effective result communication.
- ▶ To maintain a culture of clinical best practice throughout the organisation, ensuring the personal and professional development of all our team members

## CERTIFICATIONS

# **FOLLOWING GLOBAL BENCHMARK IN TECHNOLOGY INFRASTRUCTURE**

**PREMIER HEALTH CENTER**  
**KNOW YOUR PATIENT'S HEALTH PRECISELY**

At PHC our continued investment in quality equipment ensures patients receive access to services equivalent to those provided at leading international medical facilities. We continually review the needs of our medical equipments and invest in new technology when we perceive a need for advanced modalities or newer, better equipment. We ensure that all staff have the necessary education and operating knowledge, so that the best process outcomes can be achieved for our patients.

At PHC staff training goes hand-in-hand with our technology implementation. Significant investment in staff education is a core value within the practice. Our doctors rely on our superior medical equipment based on accuracy, reliability and efficiency.

PHC will continue to invest in state-of-the-art equipment, and ongoing staff training and professional development, to ensure our patients receive high-quality services and the best care. We regularly review our equipment portfolio and discover in latest equipment, in order to maintain our competitive edge. Future planning includes assessing and expanding our service locations to meet the needs of any expected population growth. Some of the advanced equipments that we have:

## ADVANCED EQUIPMENTS

**PREMIER HEALTH CENTER**  
**KNOW YOUR PATIENT'S HEALTH PRECISELY**

## ADVIA CENATUR XP

The High- performance ADVIA Centaur XP system has more on board reagents and dedicated STAT capabilities to maximize productivity, regardless of volume or types of tests. Always ready, continuous operation without interruption.

- ▶ High throughput, up to 240 tests/hour
- ▶ Intuitive software for ease of operation
- ▶ STAT port guarantees priority sampling at any time

### POWERFUL PRODUCTIVITY

- ▶ High throughput, up to 240 tests per hour, to keep pace with peak workload times
- ▶ High-resolution touch screen for easy interaction
- ▶ Expanded ancillary reagent and fluid capacity
- ▶ Data archive feature reduces time for administrative tasks
- ▶ Universal sample rack design eliminates manual tasks

### EXCELLENT PATIENT CARE

- ▶ STAT port guarantees priority sampling at any time
- ▶ Disposable pipette tips eliminate sample-to-sample carry over
- ▶ Automatic dilution, repeat and reflex testing
- ▶ Smart Algorithm Software automatically repeats and confirms reactive testing

### ADVIA CENATUR XP

The ADVIA Centaur CP Immunoassay System is a high-throughput benchtop system that enhances your in-house test capability. With its broad menu and short Turn Around Times (TAT), you can do more without compromising efficiency, productivity, or quality. And it features the superior sensitivity and specificity you expect of Chemiluminescent with Advanced Acridinium Ester Technology. The ADVIA Centaur CP Immunoassay System is a surprisingly powerful and fast mid-sized immunoassay system. This consolidated platform with its enhanced menu capacity improves workflow and decreases costs by eliminating the need for multiple systems.

#### FEATURES

**Patient Care:** The ADVIA Centaur CP Immunoassay system allows your lab to provide excellent patient care by bringing a wide range of immunoassays onto a single workstation, including infectious disease and Serum HER-2/neu.

- ▶ Comprehensive disease state testing menu
- ▶ TAT in as little as 15 minutes for most assays
- ▶ Sample and reagent bubble detection, and sample clot detection
- ▶ Constant visibility to time to result for each test
- ▶ Up to 180 test/hour throughput
- ▶ 400-test walkaway capacity

#### QUALITY:

The ADVIA Centaur CP Immunoassay System uses the same time-proven Chemiluminescent Acridinium Ester technology as the rest of the ADVIA Centaur Family, and the same features to maximize quality:

With the ADVIA Centaur CP Immunoassay System you can stay ahead of your growing test volume, Maximize productivity, and meet the growing needs of your lab in less time and greater efficiency.

## D-10 HEMOGLOBIN TESTING SYSTEM

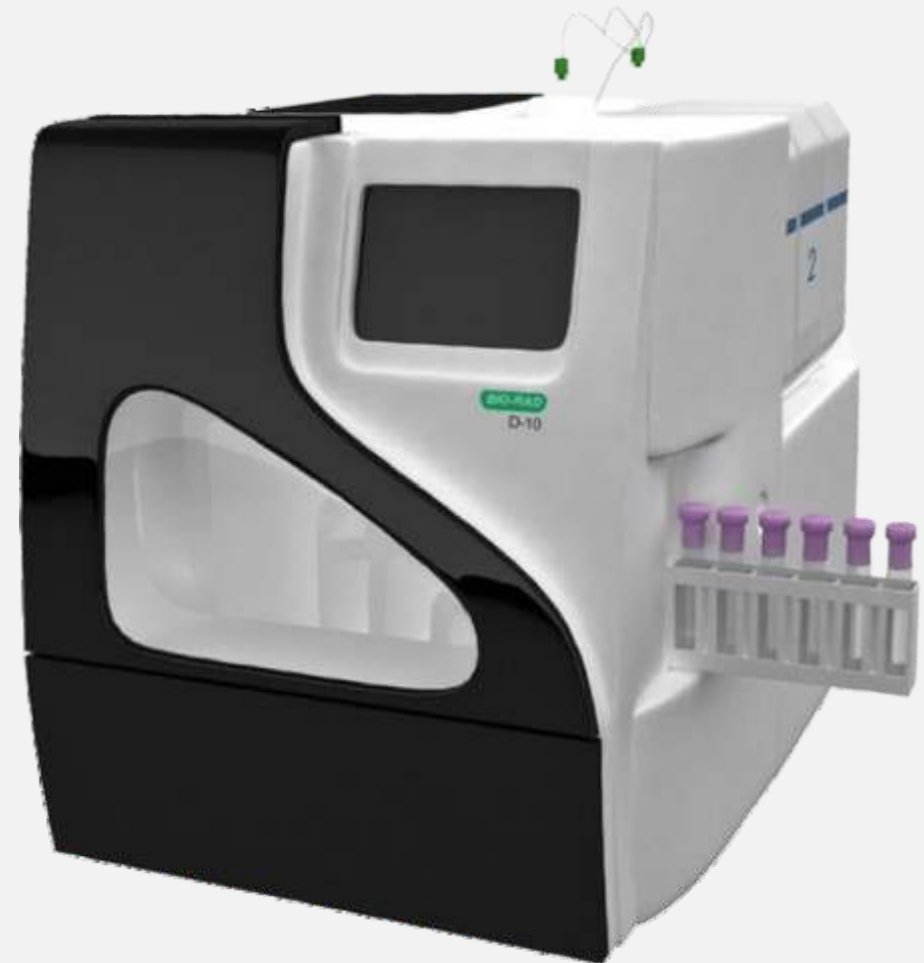

The D-10 instrument provides comprehensive fully automated hemoglobin testing in a compact footprint. Combining diabetes and B-thalassemia testing on a single platform, the system offers simple, efficient operation for clinics, physician offices or clinical laboratories.

Easy to use, the D-10 includes an interactive instrument training CD-ROM and multilingual operational support. Developed for flexibility and reliability, the D-10 features an automatic system startup checklist and touch screen operation.

One-step cartridge switching and automatic sample bar code reading increase workflow efficiency. Whole blood primary tube sampling eliminates off-line sample preparation.

Separate programs for fast HbA1c or HbA2/F/A1c quantization further simplify workflow.

Review results with an improved chromatogram layout and print results through any network computer. Electronic Patient reports are also available online. Chromatograms are easy to read with all peaks labeled and calibrated peaks shaded for easy identification.

## DIASYS 400

- ▶ Constant throughput of 400 photometry tests per hour.
- ▶ Rear spectrophotometry of holographic concave flat field grating, cluster-optical path, realizing super micro volume detection of reaction solution.
- ▶ 60nm polished probe, liquid level detection, clot detection & collision protection.
- ▶ Cuvette auto rinsing and blank cuvette detection sample rerun and dilution function.
- ▶ User defined input of patient information & graphical software

## DIMENSION EXL 200 INTEGRATED CHEMISTRY SYSTEM

The Dimension EXL TM200 Integrated Chemistry System offers trusted productivity- enhancing features and LOCI RAdvanced Chemiluminescence Technology

- ▶ Consolidates workstations with a single system that integrates chemistry and immunoassay testing.
- ▶ Test from a comprehensive menu that includes critical cardiac assays and our no-pretreatment immunosuppressive drug assays.
- ▶ Achieve throughput of up to 627 tests per hour with 47 assays onboard.

### TECHNOLOGIES

- ▶ Experience excellent immunoassay sensitivity using small sample volumes with homogeneous LOCI R Advanced Chemiluminescence Technology.
- ▶ Produce fast and accurate results-first result in as little as 11 minutes for key critical assays.

### FEATURES

- ▶ Consolidate testing with a comprehensive menu, including chemistry, cardiac, thyroid, and our no-pretreatment immunosuppressive drug assays.
- ▶ Avoid splitting samples-simultaneously run all assays from one sample tube.

- ▶ Simplify your work flow - mix and match chemistry and immunoassay tests in one common reagent area.
- ▶ Save space with a compact footprint of 1.5sq m (16.2sq ft.)
- ▶ Meet workload demands with throughput of up to 627 test/hour and electrolyte results in under a minute.
- ▶ Increase testing capabilities with 47 assays onboard concurrently.
- ▶ Respond quickly with STAT sampling from any position and a 4-minute time to first result for a basic panel.
- ▶ Save time with no manual sample pretreatment, no manual reagent preparation and long calibration stability.

### MINIVIDAS

MINI VIDAS processes single sample and batch test for all types of analysis: Serology, immunochemistry, antigen detection. Ten different analytes can be used simultaneously. All enzyme immunoassay reaction stages are performed automatically in minimal space: pipetting, incubating, washing, reading, and result are sent immediately to the integrated printer.

► **Completely self-contained Unit**

Analytical module with 12 test positions/2 independent 6-test compartments

Integrated monitor, Keyboard and printer

► **Fits easily into your laboratory**

Light weight: only 88 Lbs (40kg)

Small dimensions

► **Daily start-up completed in a few seconds only**

#### EASY TO USE:

- Patient ID acquisition & sample distribution
- Place SPR and STRIP in to the machine
- Press Start Key.

#### QUALITY:

- The ADVIA Centaur CP Immunoassay System uses the same time-proven
- Chemiluminescent Acridinium Ester technology as the rest of the ADVIA Centaur
- Family and the same features to maximize quality:
- With the ADVIA Centaur CP Immunoassay System, you can stay ahead of your
- Growing test volume, maximize productivity and meet the growing needs of your lab
- In less time and greater efficiency.

## SWELAB

Swelab Alfa Plus analyzers now come packed with the latest user-friendly technologies that make it even easier for you to obtain, analyze and share accurate hematology results.

- ▶ 7-inch touch-sensitive display with landscape-view WVGA color screen.
- ▶ Powerful software with simple-to-understand, easy-to-navigate menus.
- ▶ Interface design promotes smooth operation and accurate assessment of results
- ▶ Soft lighting plus ergonomic design simplify sample handling
- ▶ USB port is evidence of much improved connectivity and communication
- ▶ The familiar Swelab design houses many new features and functions.

Swelab Alfa Plus hematology analyzers combine unmatched reliability with maximum ease of operation. Fast and user-friendly, their highly-accurate results are backed up by built-in quality monitoring and low instrument maintenance. In addition, a complete system solution comprising instruments, reagents and QC materials ensures outstanding performance time after time.

## ADVANCED EQUIPMENTS

### VITEK 2 COMPACT

VITEK 2 technology represents a smarter way to automate ID/AST testing. It provides rapid, automatic, standardized validation of every test result with next generation expert software, the ADVANCED EXPERT SYSTEM. The VITEK 2 ADVANCED EXPERT SYSTEM software is like having an expert advisor standing by your side. It applies a coloured indicator to each isolate that shows the level of confidence in the susceptibility results.

#### TECHNIQUES

The advanced expert system can boost your confidence further by automatically providing validation of every susceptibility test results, to help clinicians select the most appropriate antibiotic treatment. It signals when results are ready, saving time and gives you an accurate phenotype profile of the bacterial resistance mechanism(s) for each isolate tested, using color-coded indicators, Biomerieux's Advanced Reporting Tool (bioART) also enhances our reporting with customization and maximum efficiency.

- ▶ Customized Reporting: According to your requirements using BIOART create rules based on intuitive 'If..then' logic.
- ▶ Eliminates manual report modification.
- ▶ Automatically adds customized comments and alerts when reporting clinical results.

- ▶ Helps implement your institution's reporting and infection control policies
- ▶ Proven accuracy, with faster results, contributing to improved patient outcomes.
- ▶ Minimizes human error that is an inevitable part of manually reading and reviewing results.
- ▶ Closed system: no aerosols, splattering or spills. Full traceability with pre-applied barcodes.

## YUMZEN H500

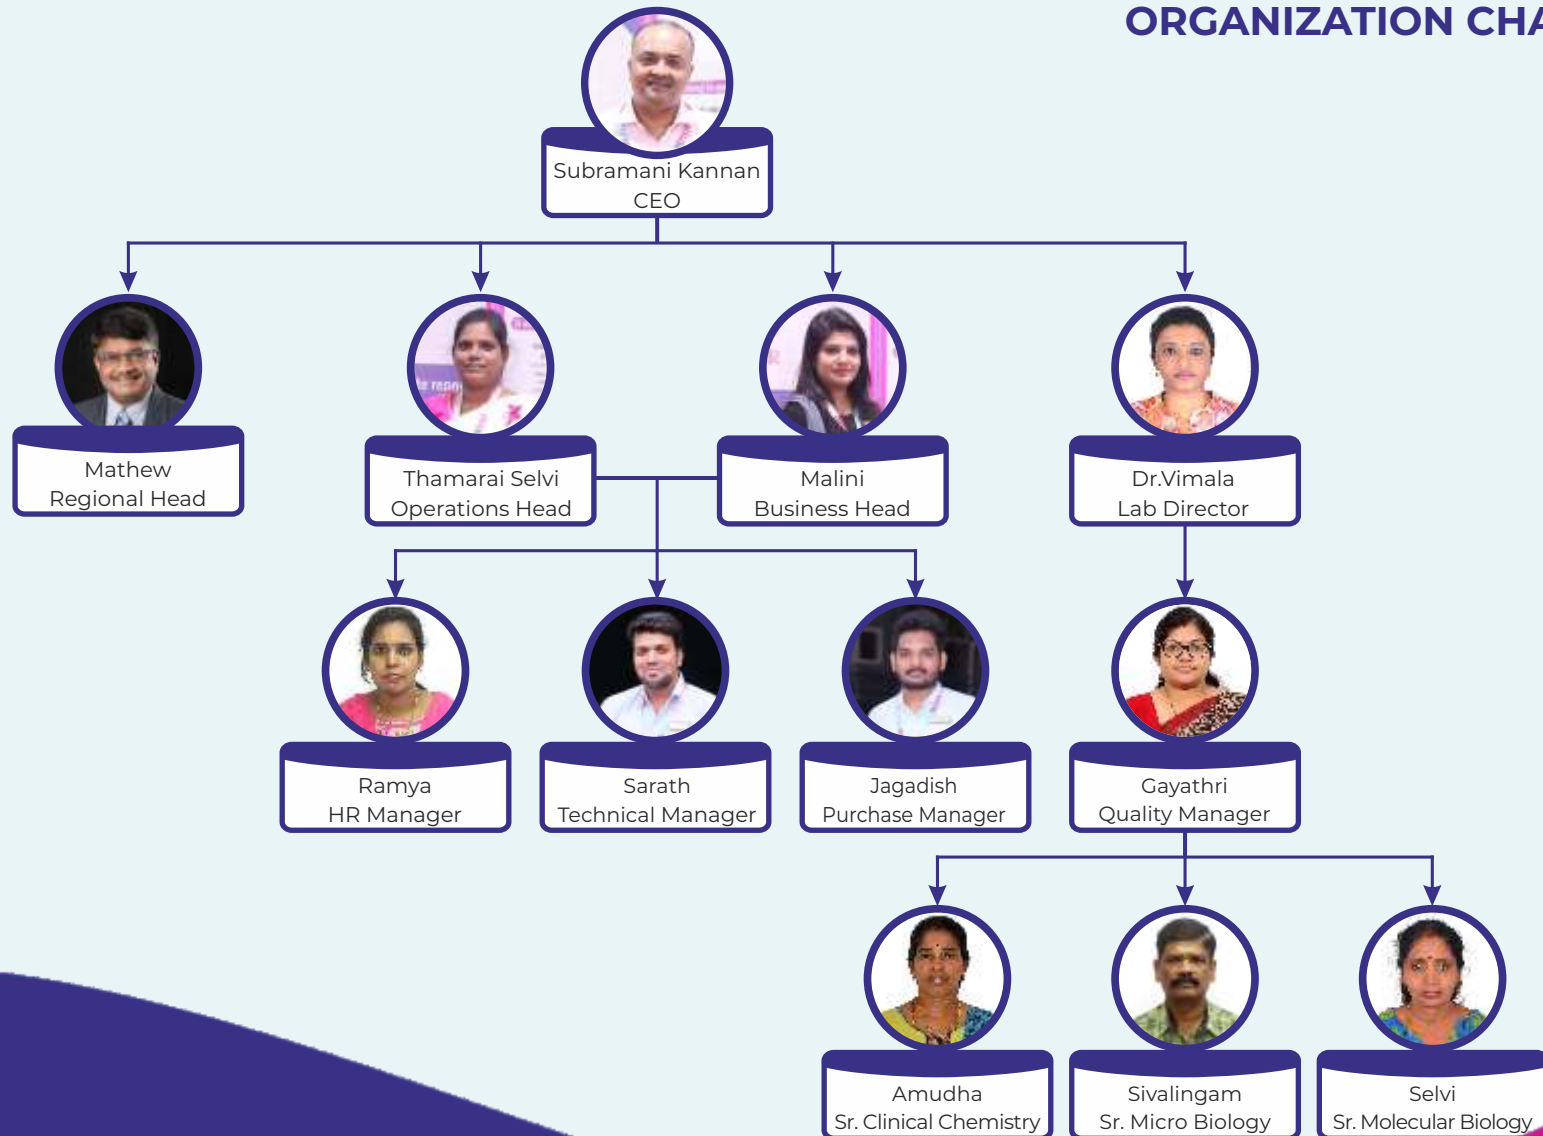

- ▶ Yumizen H500 is a Hematology Analyzer which can be used as 6 parts. It is a compact analyzer with 2 Reagents concept only.
- ▶ Yumizen H500 provides 27 parameters including full WBC differential with 6 WBC populations (LMNEB, Lymphocyte, Monocyte, Neutrophil, Eosinophil, Basophils and LIC-Large Immature Cells) and with alarm expert system.
- ▶ Aperture Diameter for WBC and Differential as well as for RBC and PLT Detection is 60Um.
- ▶ Yumizen H500 provides Throughput of 50 tests/hour
- ▶ Yumizen H500 provides Micro-sampling of 20 $\mu$ l for both CBC and DIFF mode
- ▶ Yumizen H500 possesses Reference Technologies as Impedance, Spectrophotometry, Flow-Cytometry and Absorbance for analysis.
- ▶ DHSS (Double Hydro Sequential System), a patented technology for Horiba for excellent WBC reporting
- ▶ Yumizen H500 uses a unique lyse known as Whitediff. A dedicated lysing solution exclusively used for
  - Erythrocytes lysing (RBC)
  - Leucocytes Counting (WBC)
  - Leucocytes Differentiation (DIFF)
  - Hemoglobin Determination (HGB)

## TECHNOLOGIES

- ▶ DHSS (Double Hydro Sequential System), For Cytochemistry and Flow Cytometry
- ▶ Cytochemistry
- ▶ Temperature controlled reagent cytochemistry produces excellent cell differentiation
- ▶ 40 hours post-draw stability
- ▶ Flow Cytometry
- ▶ Precise Cellular identification by injecting the prepared sample into a double hydrodynamic cytometer: Impedance (Cell Volume measurement and optical analysis of the internal cellular structure by measuring light absorbency)

## PHC SELECT @ ANNA NAGAR, CHENNAI

In its quest to provide the customers, 'the best', PHC is coming out with the most advanced laboratory with truly state-of-the-art equipments and a host of other facilities for customers to know their health profile precisely.

For the first time ever in Chennai, PHC is creating a new phenomenon in diagnostic landscape of the city. Titled as PHC SELECT, this architecturally designed facility with opulent interiors comes as a benchmarking standard to the diagnostic environment of Chennai.

Spread across a fully furnishes 3,000 square feet space, PHC SELECT will make patients feel refreshed, happy and relaxed. The soothing ambience coupled with pleasant lighting will make patients feel comfortable and they are not patients anymore.

In addition to a wide range of world-class testing equipments, PHC SELECT has some of the first-of-its-kind facilities such as

**Veineux:** This new age instrument makes locating your veins easy and comfortable. This is particularly useful for young kids, patients undergoing chemotherapy, dialysis and those little extra weight patients. This instrument makes identifying veins so easy and effortless. So, there is no need for tapping or pricking needle pain for identifying veins.

**Drive-in Collection:** For the first time in Chennai, PHC offers drive-in blood collection facility to their customer. The drive-in blood collection facility will provide ease, especially for senior citizens and the physically challenged, for quick blood collection even without getting out of the car. They can give the blood in the drive-in area itself without even getting into the laboratory and waiting in queue. All testing requests can be made through the phone and the validated results can be obtained through the internet.

**Lounge Access:** This ultramodern facility comes with opulent lounge access, which means you can conduct your tests in a relaxing and comfortable environment.

**Pleasant Interiors:** The facility comes with pleasing interiors which makes your waiting time pleasant and comfortable.

**No Extra Charges:** All these outstanding facilities come to you at NO EXTRA COST. This facility is an extension of PHC's commitment to serve their customers with utmost care and this doesn't come to you at an extra cost.

Pay a visit to PHC SELECT and feel the difference.
